On the Anniversari of the University

*Lebedeva S.,
Bagryantseva E.,
Nilova E.*

60 years in science and cooperation 3

The article provides an overview of the research activities of the university for five years in the context of the personnel potential, implementation of state scientific programs, execution of research and development, technological work on individual projects and agreements with organizations, publication activity, inventive activity and scientific events.

Key words: scientific research; scientific publications; innovation activity; scientific schools; consumer cooperation.

Modern Technologies

*Sytsko V.,
Antonava A.,
Bagryantseva E.,
Kuzmenkova N.*

Practical aspects of combining secondary polymers as a basis for import substitution..... 8

The article analyzes modern approaches to combining secondary polymers with modifiers. The object of the study is new composite materials obtained as a result of recycling of secondary polymers combined with organo-plant components. The main problems of combining polymers with each other and with organic fillers are considered; practical aspects of combining secondary polymers with wood fillers are studied. The practical aspects of combining secondary polymers with wood fillers are considered; the influence of various technological factors on the properties of the material obtained is shown. The main problems of combining polymers with each other and with organic fillers are highlighted, and individual technological techniques that simplify the combination of different types of polymers are considered. The results contribute to the technology of polymer materials processing, materials science and commodity science.

Key words: recycling; secondary polymers; wood-polymer composites.

*Roshchyna A.,
Suprunets S.*

Comparative assessment of quality and competitiveness level of gingerbread produced by Malorita Regional Consumer Society 13

The article formulates and substantiates the need to assess the quality rating and competitiveness of goods. Methodological approaches to evaluation and the results of comparative assessment of the level of quality and competitiveness of gingerbread produced by the Malorita Regional Consumer Society, their value in relation to manufacturers based on the competitiveness index are shown in the article.

Key words: gingerbread; assessment; quality level; competitiveness rating; weight coefficients.

Education. Specialists' Training

*Vishniavetskaya L.,
Mishchanka U.,
Yakimik H.*

Methodical builder of the formation of students' personality 18

In the article the innovative experience of educational work of curators of the Belarusian Trade and Economics University of Consumer Cooperatives is presented, a model of formation of personal qualities of the university students is proposed.

Key words: student; personality; methodical builder; model; curator.

*Baybardina T.,
Astafieva V.,
Latskevich N.,
Gusakova A.*

Trends and prospects for training masters at the Educational Institution "Belarusian Trade and Economics University of Consumer Cooperatives" 22

The article discusses modern aspects of training masters in higher education institutions, reflects the problems that occur during the training of highly qualified specialists, and identifies priorities for strengthening the competitive position of the university in the market of educational services within the framework of a multi-level system for training masters of economics.

Key words: master's degree; master's student; master's program; university; satisfaction with the quality of educational services; competitive positions; market of educational services.

*Phedortsova E.,
Kniazkova E.*

On the activities for effective English language learning at the Belarusian Trade and Economics University of Consumer Cooperatives* 30

The article substantiates the importance of the English language in the modern world, presents the analysis of the activities for effective English language learning, implemented by the Department of Foreign Languages of the Belarusian Trade and Economic University of Consumer Cooperatives for the last 5 years, as well as identifies the problems in the process of teaching foreign languages.

Key words: Department of Foreign Languages; English language; teachers; students; motivation; educational process; activities.
